Lynda said that, yes, they could fund us. How does that work on your end? What do I need to do to procure the actual funding?

I eagerly await the draft!

Did the Leviathan project manager say that she got some money to give to the MSCA? (Hard to fund something without money!)

Yes! I started working on the draft last week. I am adding the Leviathan site as we discussed in January. We are not making many changes to the Anaconda workplan for this initial submittal. I am assuming this will change once the fate of this site is decided.

Hi Rebecca,

We should be working on the MSCA workplan about now. Are you going to send a draft over soon?
